Thank you.

Best wishes for your future "labors." Enjoy your baby time, and get some sleep whenever possible. Let someone else do cleanup.

Maureen,

I have no comments to add. It looks to me as though they've met clean-up standards.

Jennifer,

Per our discussion today, I plan to close out the Quebecor remediation project, based on a review of the Corrective Measures Completion Report (GES report dated 12/28/07). Please let me know if you have any issues with the report or the conclusion that the remediation has met the clean-up standards.

Thank you.

Jeff,

As we discussed yesterday, I have reviewed the Corrective Measures Completion Report for the Quebecor Atglen clean-up, and I am prepared to close-out the project. Please submit the required certification (true, complete and accurate) for the report. I have copied the certification requirement from the Administrative Order (Notifications section, page 27) for corrective measures implementation. After I receive the certification for the report, I will close-out the project.

Based on my inquiry of the person(s) directly responsible for gathering the information, or the immediate supervisor of such person(s), the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
